1. General

The purpose of this document is to provide you with important information on the Investment Options that Craigs Investment Partners Limited ("CIP", "we", "our" or "us") offers to mySTART investors. This document contains information on management fees, total annual fund charges and other fees and charges in respect of each of the investments listed in the Investment Options Supplement, as well as each investment's risk indicator. For information on all fees charged by us, please refer to this document and the mySTART Brochure available at craigsip.com/documents. Certain fees, charges or expenses referred to in this document are subject to GST at the prevailing rate.

Investment Options include a range of investments such as global, New Zealand and Australian equities, investment trusts, managed funds, index funds and listed property trusts. Cash can be held in the cash accounts within your portfolio. The Investment Options are grouped by asset class. The investments listed in the Investment Options Supplement will only be available for investment when they are actively trading on an exchange or open for new investment.

All Investment Options are identified as being researched or not researched by the Craigs Private Wealth Research team.

Where we refer to further information being available in respect of an Investment Option on the offer register at disclose-register.companiesoffice.govt.nz it is recommended that you review the relevant offer documents such as the Product Disclosure Statement ("PDS"), Other Material Information and Statement of Investment Policy and Objectives (where available) for each Investment Option that you choose to invest in.

NZ MANAGED FUNDS

A managed fund, or diversified fund, is an unlisted fund run by a fund manager whose purpose is to invest in companies (and sometimes other funds), with the aim of increasing the value of its portfolio. A broad range of managed funds are available in the market, including large funds that invest in companies from around the world and tailored funds that invest in a smaller selection of companies that operate in a specific market.

Management fees

Management fees charged by CIP in connection with NZ managed funds are charged at a flat rate of 0.35% per annum. CIP's management fee is included in the Total Annual Fund Charges (Estimated) for each NZ managed fund. These Total Annual Fund Charges (Estimated) include the relevant estimated fees and charges to be incurred in the underlying NZ managed funds as disclosed within each relevant NZ managed fund's PDS as at the date of this Investment Options Supplement. Please note that the actual fees and charges incurred in respect of an underlying NZ managed fund may be higher or lower than the estimated fees and charges disclosed in that NZ managed fund's PDS.

*Please note: Fee rebate arrangements apply to the funds marked with an asterisk below in the corresponding Total Annual Fund Charges (Estimated) column. If you invest in those specified underlying fund(s), part of the management fee charged by the manager of that underlying fund will be paid back to you as a rebate. Therefore, estimated total annual fund charges for each of the asterisked funds set out in the table below reflects the underlying fund charges after the underlying fund manager's management fee has been charged and the agreed rebate has been applied. Rebate arrangements are subject to change from time to time.

AUSTRALASIAN INVESTMENT TRUSTS AND MANAGED FUNDS

An investment trust is a listed fund run by a fund manager whose purpose is to invest in companies (and sometimes other funds), with the aim of increasing the value of its portfolio. A broad range of investment trusts are available, from large funds investing in companies around the world to funds investing in a smaller selection of companies operating in a specific market.

Investment trusts and managed funds may charge fees. CIP does not charge, have any influence over, and does not receive any share of these fees. It does mean however, that by investing in investment trusts and managed funds, it may result in you paying the underlying security fees plus the relevant management fee charged by us.

Management fees

ASSET CLASS	MANAGEMENT FEE (PER ANNUM)		
	TIER 1 0 TO \$75,000	TIER 2 \$75,001 TO \$150,000	TIER 3 \$150,001 UPWARDS
Equities & Listed Securities	1.00%	0.75%	0.50%

Total Annual Fund Charges (Estimated) for each Investment Trust and Managed Fund includes the maximum management fee that may be charged by us (Tier 1) plus the relevant estimated fees and charges to be incurred in the underlying Investment Trust and Managed Fund as at the date of this Investment Options Supplement. The actual fees and charges incurred in respect of an underlying Investment Trust and Managed Fund may be higher or lower than the estimated fees and charges included in the Total Annual Fund Charges (Estimated) for that Investment Trust and Managed Fund. Please refer to the latest fund update and offer documentation (where available) for each relevant Investment Trust and Managed Fund to obtain the most up to date fees and charges information.

AUSTRALASIAN EXCHANGE TRADED FUNDS (“ETFs”)

Index ETFs aim to track the performance of a particular index (such as the Dow Jones Index or the MSCI World Index), providing the same return as that index before fees and expenses associated with the fund. Unlike an investment trust or managed fund, an index ETF does not seek to outperform its benchmark or underlying index.

Active ETFs do not track the performance of a particular index (such as the Dow Jones Index or the MSCI World Index), but seek to outperform a specific index or achieve a specific outcome by underweighting or overweighting certain securities relative to an index weighting.

ETFs may charge fees. CIP does not charge, have any influence over, and does not receive any share of these fees. It does mean however, that by investing in ETFs, it may result in you paying the underlying security fees plus the relevant management fee charged by us.

INTERNATIONAL INVESTMENT TRUSTS AND MANAGED FUNDS

An investment trust is a listed fund run by a fund manager whose purpose is to invest in companies (and sometimes other funds), with the aim of increasing the value of its portfolio. A broad range of investment trusts are available, from large funds investing in companies around the world to funds investing in a smaller selection of companies operating in a specific market.

Investment trusts and managed funds may charge fees. CIP does not charge, have any influence over, and does not receive any share of these fees. It does mean however, that by investing in investment trusts and managed funds, it may result in you paying the underlying security fees plus the relevant management fee charged by us.

INTERNATIONAL EXCHANGE TRADED FUNDS (“ETFs”)

Index ETFs aim to track the performance of a particular index (such as the Dow Jones Index or the MSCI World Index), providing the same return as that index before fees and expenses associated with the fund. Unlike an investment trust or managed fund, an index ETF does not seek to outperform its benchmark or underlying index.

Active ETFs do not track the performance of a particular index (such as the Dow Jones Index or the MSCI World Index) but seek to outperform a specific index or achieve a specific outcome by underweighting or overweighting certain securities relative to an index weighting.

ETFs may charge fees. CIP does not charge, have any influence over, and does not receive any share of these fees. It does mean however, that by investing in ETFs, it may result in you paying the underlying security fees plus the relevant management fee charged by us.

Management fees

Total Annual Fund Charges (Estimated) for each ETF includes the maximum management fee that may be charged by us (Tier 1) plus the relevant estimated fees to be incurred in the underlying ETF as at the date of this Investment Options Supplement. The actual fees and charges incurred in respect of an underlying ETF may be higher or lower than the estimated fees and charges included in the Total Annual Fund Charges (Estimated) for that ETF. Please refer to the latest fund update and offer documentation (where available) for each relevant ETF to obtain the most up to date fees and charges information.

* Please note: Fee rebate arrangements apply to the funds marked with an asterisk below in the corresponding Total Annual Fund Charges (Estimated) column. If you invest in those specified underlying fund(s), part of the management fee charged by the manager of that underlying fund will be paid back to you as a rebate. Therefore, estimated total annual fund charges for each of the asterisked funds set out in the table below reflects the underlying fund charges after the underlying fund manager's management fee has been charged and the agreed rebate has been applied. LISTED MANAGED PROPERTY FUNDS

Some Managed Property Funds are listed and run by a fund manager whose objective is to invest in property (and sometimes other funds), with the aim of increasing the value of its portfolio. A broad range of Listed Managed Property Funds are available in the market, including large Listed Managed Property Funds that invest in property located all around the world and Listed Managed Property Funds that invest in a smaller selection of property located in a specific geographical location.

Listed property securities may charge fees. CIP does not charge, have any influence over, and does not receive any share of these fees. It does mean however, that by investing in listed property securities, it may result in you paying the underlying security fees plus the relevant management fee charged by us.

LISTED PROPERTY INDEX FUNDS

Listed Property Index Funds are run by a fund manager whose objective is to invest in property, with the aim of tracking the performance of a particular index providing the same return as that index before the deduction of fees and expenses associated with the fund. Unlike a managed property fund, an index fund does not seek to outperform its benchmark or underlying index.

Listed property securities may charge fees. CIP does not charge, have any influence over, and does not receive any share of these fees. It does mean however, that by investing in listed property securities, it may result in you paying the underlying security fees plus the relevant management fee charged by us.

Trading expenses are the actual costs to the member of buying and selling investments that you may be charged, such as brokerage fees and spreads, stamp duty and FX margin (if applicable), including those costs incurred by underlying funds, but it does not include custodial fees.

Brokerage is charged at a maximum of 1.25% of the amount of the relevant listed security transaction when sales or purchases of Investment Options are made. This includes where a new investment or a withdrawal is made or where you change Investment Options.

4. Understanding the Risk Indicator

A risk indicator number for each Investment Option is included in this Investment Options Supplement.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets or company goes up and down (volatility). A higher risk generally means there is the potential for higher returns over time, but with the risk of higher losses, and there are likely to be more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at craigsip.com/risk.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of an Investment Options' future performance. The risk indicator is based on the returns data for the five years to 31 December 2023 (where applicable). While risk indicators are usually relatively stable, they do shift from time to time.
